

Charter Oak Gymnastics' COVID- 19 Policies

Social distancing

We have reduced the maximum capacity allowing for greater separation of students with a one class one coach interaction throughout the class. This will limit the classes available and the number of students in each class.

Class times will also be reduced to allow for traffic flow and additional cleaning time.

Students will enter through the back door

When the students will finish class they will be escorted outside by a staff member from one of the front doors. Please be ready to pick up your child right after class.

Only one parent of students 7 years old or younger will be allowed inside. No other parents will be allowed inside the waiting rooms. Social distancing must be maintained with all adults required to wear face masks.

Classes will be arranged in stations to maximize child separation and have limited touching by coaches.

All staff will wear face masks and also temperature check before starting work.

Health Check

All staff have a health check off list to tell them to come to work or not.

All staff have a daily temperature check and hand sanitation.

All students enter with a quick no touch temperature check and hand disinfectant application.

Any parent entering the My Jungle gym floor area with their child will also need to be temperature tested.

Of course please keep any sick child at home. We will not allow sick students into class.

Additional precautions

We will have hand sanitizer throughout the gym.

Constant cleaning with a virucide, alcohol and UV light for sanitation before, during and after each class.

Whenever possible the doors will be open and fans on for an open air environment.

Drinking fountains will remain closed.

All staff have been instructed to clean themselves after child interaction.

Parent registration and interaction with the office staff will only be over the phone and the new online parent portal.
