

Charter Oak Gymnastics' COVID- 19 Policies

Social Distancing

Students will enter through the back door.

When the students finish class, they will be escorted outside by a staff member from one of the front doors. Please be ready to pick up your child right after class.

Please, only one parent of students will be allowed inside. No other parents will be allowed inside the waiting rooms. Social distancing should be maintained and all adults that are not vaccinated are required to wear face masks.

Any staff member that is not vaccinated will wear face masks.

Health Check

All staff members have a health check list to tell them to come to work or not. Any parent entering the "My Jungle Gym" floor area with their child will also need to review their health check points.

Of course, please keep any sick child at home. We will not allow sick students into class.

Additional Precautions

We will have hand sanitizer throughout the gym.

Whenever possible, the doors will be open and fans on for an open air environment.

Drinking fountains will remain closed.

All staff members have been instructed to clean themselves after child interaction.

Parent registration and interaction with the office staff will only be over the phone and/or through the new online parent portal. The office window will be opening on March 1st.
